RAILROAD IN A DIVORCE MIXUP

In the case of Mattie Kearns against Ira J. Kearns and the Southern Pacific Railroad company, the defendants have been cited to appear in court May 5, and show cause why the wages of the defendant Kearns should not be retained by the defendant railroad company, subject to the order of the court.

Mrs. Kearns is suing for a divorce, alleging that she is without means to fight her case and pay attorney fees. She avers that her husband is employed by the Southern Pacific company, getting a salary of \$90 a month, and she asks that the company be enjoined from paying the salary, pending the settlement of the case. Mr. Kearns is also enjoined from receiving the salary.

GERMANS WAR ON DRY TOWN.

Salt Lake, April 25.—Following closely upon the beginning of the prohibition propaganda to make Salt Lake a dry town the German-American Central Alliance has inaugurated a movement to keep the city wet. About 100 members of the association assembled last night in Harmonie hall to discuss the issue. Resolutions were unanimously adopted declaring prohibition unsuited to Salt Lake and a menace to its prosperity.

The meeting was addressed by Nathan A. Cole, director of publicity for the National Association of Manufacturers and Business Men, G. M. McDowell, organizer for the same association, and Julius Moersch, president of the Minnesota German association. The National Association of Manufacturers and Business Men, which has its headquarters in Chicago, has

BEST FOR BISCUITS.

A prominent teacher in one of the Domestic Science schools in Mississippi writes that she is using Cottolene with excellent results. She says:

"For biscuits Cottolene is all that could be desired. The biscuits are light and flaky, with none of that disagreeable odor often found in foods shortened with lard. Cottolene is also an excellent medium for frying croquettes and doughnuts. It gives them a clean, crisp, brown crust."

Other noted experts, such as Mrs. Rorer and Marion Harland, have given similar testimony to the merits of Cottolene. It not only gives better results than lard but is much more wholesome and economical as well.

taken an active interest in fighting against prohibition in large cities. It bases its campaign on the contention that prohibition injures business while failing to prohibit.

Nathan A. Cole, the director of publicity, has conducted a number of campaigns in the larger cities of the country. The publicity work is confined to the presentation of arguments against prohibition.

The list of every address delivered last night was that a "dry town" was a bad business and that the open and properly regulated saloon was far preferable to the "bootlegging dives" to be found in cities that have adopted prohibition.

Leo Dannenferfer was chairman of the meeting and Fritz Kohler secretary.

PEOPLE ASKED TO STAY JUDGMENT

San Francisco, April 25.—The California State Federation of Labor today issued an appeal to the public to give John J. McNamara and the others accused of being implicated in the dynamiting of the Los Angeles Times, the benefit of the presumption of innocence. A resolution was passed by the executive board denouncing the crimes charged as "so heinous and revolting that no just punishment could ever be meted out." The resolution proceeded:

"Although we deem it unnecessary at this time to reiterate the uncompromising attitude of organized labor as being opposed to any and all acts of violence, whether committed by friends or enemies, we do most earnestly request our friends and sympathizers to withhold judgment in this instance until the accused have been tried."

LEADERS OF BAND OF ROBBERS CAUGHT

Buffalo, N. Y., April 25.—Two men arrested here early today are charged by the police with being widely sought leaders of an organized band of robbers. According to the police, the men are known to the roving galleries of a dozen cities as "Couples" Cross and "Big Bill" McGee.

In the room occupied by the men as their headquarters, the police claim to have found letters from convicts and ex-convicts, maps of several states with the locations of many small post-offices curiously blue pencilled and other papers which will prove interesting to the authorities.

Much of the writing is in hieroglyphic code. Each of the blue pencilled postoffices on the maps is marked with a scrawl which is supposed by the police to indicate just how accessible the office is likely to prove.

JUDGE SAYS LAW MUST BE OBEYED

Logan, April 26.—Judge Maughan of the First district court, in passing sentence on four boys charged with serious offenses Saturday afternoon called public attention to the fact that unwisely expressed sympathy for offenders against the law is causing an increase in crime here, and he urged the people not to hamper the officers of the law with sentimental pleas for mercy when the law has been broken and punishment should be administered. He said that he was convinced of the fact that the city is getting a questionable reputation because of this very thing. There was showing made for the prisoners in mitigation of sentence by an attorney and when the district attorney endorsed the plea made by the other lawyer the court imposed a sentence of a \$75 fine on each of the defendants. Lester Walker, Clyde Green, A. Culbertson and Lester Peterson.

The farmers of the county have decided to lend all the aid they can in fighting the lucern weevil which many people here fear has obtained a foothold in Cache valley. This afternoon the executive committee of the Cache Valley Farmers' association met and laid plans for having the appearance

\$100 Reward \$500.
The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up his system. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for free copy of this book to Dr. J. C. HALL, 700 North Third St., St. Paul, Minn.

of any strange bug or insect reported at once to Director Ball of the experiment station, who has promised to give it immediate attention. As the association has representatives in all districts of the county the campaign against the weevil is likely to be an effective one.

The city board of education opened the bids for the issue of bonds recently voted by the people last evening and H. H. Holtz & Co. of Chicago, were the successful bidders. They offered a premium of \$726 on the entire issue. There will be \$35,000 worth of the bonds and they will bear 5 per cent interest. There were several bidders for the bonds.

BROOM CORN EXPERIMENT TO BE TRIED AT MURRAY

For the purpose of learning definitely whether or not broom corn can be profitably grown in Utah, the Murray Commercial club has contracted for a number of acres of land in the eastern portion of the city, and this week, under the personal supervision of a special committee from the club, at least five acres of land will be planted with broom corn. This is the first attempt as to the feasibility of growing broom corn, and as a number of encouraging reports have been received from Logan, to the effect that experiments there are successful, it is generally thought at Murray that the venture will turn out to be satisfactory. There is a great deal of talk in Murray about the erection of a broom factory there, and much hinges on the solution of this particular experiment.

NEGROES EAGER TO JOIN ARMY

Atlanta, Ga., April 25.—There are more negro recruits available here than there are places for them in the United States army. Recently the local recruiting station received orders from the war department to obtain negro recruits for the 24th Infantry, which was under orders to sail for the Philippines. The response was instantaneous, and in a short time more men had applied than could be taken.

One of the applicants for enlistment was so disappointed at his failure that he wrote President Taft, urging that he be accepted as a fighting man. The letter was referred to the local station, where it will be kept on file. When there is another call for negro soldiers, the applicant will be promptly notified.

Only experience can measure coal quality. You've got to burn "HIAWATHA COAL" in your stove, grate or furnace to thoroughly know its superior goodness. When you buy "HIAWATHA COAL" you get the extreme limit of the best quality of bituminous coal mined from Mother Earth. All dealers.

HIGH CHARGES OF TAXICAB COMPANIES

New York, April 25.—The big taxi-cab companies in control of the hotel and theater business have served notice on the public that they will raise their rates about ten per cent, beginning May 1.

According to the management of the companies, they are losing money on the prevailing tariff, which is seventy cents for the first mile and forty cents for each succeeding mile. The new rate will be eighty cents for the first mile and 50 cents for each succeeding mile. City officials say that the proposed new scale is about five times greater than that asked in London or Paris.

MAN KILLED BY FALLING BOULDER

Utica, N. Y., April 25.—A huge ledge of rock became dislodged from the "railway," a precipitous cliff in the residence section of Little Falls, shortly before daybreak yesterday, and plunged downward 300 feet through the roof of the cottage of Fred Van Wie. Van Wie was asleep on the second floor and the boulder carried him, his bed and most of the furnishings of the room through the cellar, killing him instantly. Other members of the household, who were asleep in the room beneath Van Wie's, escaped injury.

CLORE AND O'HARA SEEN BY A WOMAN

Men Accused of Train Robbery Inquired the Distance to Reese—Waymont Girls View the Suspects—Prisoners Will Be Before Judge Murphy in Police Court Tomorrow Morning.

The preliminary hearing of Victor Clore and Bryan O'Hara, charged with the holdup of the Overland Limited train and the murder of Pullman Porter William Davis, will be opened in police court at 10 o'clock tomorrow morning.

The prisoners will be defended by Attorneys O. W. Powers and T. Marioneaux of Salt Lake City, arrayed against whom will be County Attorney David Jensen and District Attorney E. T. Hulanicki.

It is certain that both sides will contest every inch of legal ground claimed by the other and the case is expected to be one of the most rigidly contested battles in the history of the local courts.

It is expected that nearly a score of witnesses will be produced by the state, including the crew of the robbed train and a number of Pinkerton detectives.

It is rumored that unless the Pinkertons can present more evidence than they have made public, the state will have a difficult task in binding the men over to the district court, although much corroborative evidence has been developed within the last 48 hours, tending to fix guilt on Clore and O'Hara.

Attorney Jensen, acting for the county, says he is prepared to introduce the evidence which caused the arrest of the men and he believes that it will appear to the committing magistrate to be sufficient to warrant holding the accused men for trial.

Not all the facts will be adduced at the preliminary hearing, the attorney says, but enough will be given to raise a presumption in the mind of Judge Murphy, Mr. Jensen thinks, that the robbery and murder were committed and that the accused men are likely the ones responsible.

Since the incarceration of Clore and O'Hara, a great many people who are supposed to have seen them, either at the time of the holdup or immediately before or after, have been taken to the county jail for the purpose of identification. Some are positive that they are the men, others are doubtful, and some are in such a frame of mind that they cannot form a good judgment, either one way or the other.

A negro porter of the train was

killed by the bandits, and the other negro porters who were on the train that night have been taken to the county jail to see the men under arrest. They say that Clore and O'Hara resemble the bandits, but they are not positive in their identification.

Misses Mary Bell and Myrtle Waymont, daughters of Bishop Waymont of Warren, Earl East and his mother of Plain city, all of whom were held up by the Overland Limited train robbers after the robbery, January 2, and had small sums taken from them, have visited the jail within the past few days to see Clore and O'Hara.

The Waymont girls say that the men in jail much resemble the men who held them up at the point of shotguns, near the Waymont home, only a short time that night after the robbery. The voice of Clore is much like the voice of the shorter man, who gave the "Throw up your hands" command, they say, and the general build of both Clore and O'Hara is similar to that of the bandits.

It was at Mrs. Hansen's home that a traveler, driving a single horse, appeared a few days before the train robbery and asked her the way and distance to Reese. He looked much like Victor Clore, Mrs. Hansen says. Shortly after, two men in a rig passed Mrs. Hansen's home at Plain City, the two looking very much like Clore and O'Hara. She saw them without masks, thus having a better opportunity to learn their features than those who saw them while they were masked.

The idea has been advanced by some of the detectives that the robbers, after holding up the young people at the Waymont place, retraced their steps and passed through Hooper toward Salt Lake. People who saw two suspicious men pass through that section of country at the time, have been brought face to face with Clore and O'Hara and they state positively that they are not the men they saw.

The preliminary hearing will be held in the police court, unless the attendance makes it necessary to use larger rooms.

VAGRANT IS FORCED TO TRAVEL PROBATE IN DISTRICT COURT

Louis Perritt, charged with vagrancy, was given a suspended sentence of ninety days in Police court this morning, on a promise to leave the city at once.

Perritt was a well-dressed individual and pleaded that he was not a vagrant. He gave his occupation as barbering, but admitted that he had not worked at his trade for several weeks. The arresting officers stated that when the man was taken into custody he stated that he was a gambler and that his wife was a dressmaker.

George Miller, who was arrested by Railroad Office Shumacher, pleaded not guilty to the charge of vagrancy. The railroad officer stated that he had found the man asleep in a box car in the Oregon Short Line yards. Miller admitted the truth of this statement, but contended he was a locomotive fireman and was trying to get to Evanston, where he hoped to secure employment on the railroad. He was given a suspended sentence of ninety days with instructions to leave the city.

A suspended sentence was dealt to Edith Catcart, charged with vagrancy. The woman pleaded that she, had done nothing wrong, but the statement of the arresting officer was so much at variance with her contention that the court decided that a vacation from the city would be in order.

Ray Craig, arrested for forging a check for \$12.50, pleaded guilty to the charge of obtaining money under false pretenses. The judge ordered the young man back to prison with the statement that he would defer passing sentence until tomorrow morning.

Fifty days was meted out to Roy Chambers, who pleaded guilty to the charge of vagrancy. Chambers asked for a chance to leave the city, but his request was denied.

Nick Spierco, arrested for carrying concealed weapons, did not appear for trial and his bond of \$10 was forfeited.

Paul Shinn, who appeared in the role of a plain drunk, was fined \$5 or sentenced to serve a corresponding number of days in the city prison.

UNCLEAN MILK CAUSES DEATH TO MANY INFANTS

BOSTON, April 24.—More than 10,000 babies under one year of age die each year in Massachusetts, representing an economic loss of \$170,000,000, and at least 40 per cent of these deaths are caused by unclean milk.

Declared former Representative Myron Pierce, legislative counsel for the Milk Consumers' association in a statement given out here today.

THE TIME TO AGT
is now, if your little one is not thriving in a normal and healthy manner. Don't experiment with Baby's stomach. Give the GRAEF-EMBERG CHILDREN'S PANACEA, an "Eucalyptus" of mothers before you have done, and watch the steady improvement. Many sleepless nights for you and the Baby will be saved. Druggists have been selling this medicine for over twenty years and we know of families where it has been used for successive generations of children.

Koebig, in one of the best resident districts of Los Angeles. The crime was the most desperate of several of the same character which have occurred in this city recently.

Miss Koebig, who was alone in the house, was in her room, dressing, when the front door bell rang several times in succession. When she could see who went to the door, but found no one there. She then made her way into the kitchen, where she was confronted by the man who had forced his way into the house through a window. He made a demand upon her for money and, when she refused to give him any, he seized her and beat her on the head with his revolver. She fought desperately, succeeded in breaking away and started for the front door. Before she could reach it he was again upon her and beat her to the floor with the weapon. The young lady will recover.

BURNING OF A MINE CABIN

Juvenile Judge V. C. Gunnell is making an effort to affect a settlement between the parents of the boys responsible for the burning of the Zimmerman mining cabin in Ogden canyon on Easter Sunday.

F. G. Eriksen, one of the owners of the shack which was burned, is demanding some compensation for his loss. The boys contend that they did not purposely set fire to the cabin but that, while engaged in roasting potatoes, the building became ignited and that they were powerless to prevent it burning to the ground.

No complaints have been issued against the boys but they were ordered to appear in court Saturday morning to answer the charges. The juvenile court has as yet taken no official action but has urged the boys and the owner of the cabin to settle the matter outside of the court.

NOTICE

This is to certify that Hassell & Naylor Blacksmiths on March 27th dissolved partnership, Mr. Hassell paying all bills.
(Signed) GEO. NAYLOR.

FRENCH TO MARCH TO FEZ, MOROCCO

Tangier, Morocco, April 25.—Advices from Mequinez, 35 miles southwest of Fez, and one of the summer residences of the sultan, announce that Mulai El Zin, a brother of Sultan Mulai Hafid, has been proclaimed sultan by the rebels, after capturing the place, pillaging the shops and killing several Jews.

Casas Blanca, Morocco, April 25.—Gen. Merinier, commanding the French forces here, has issued a proclamation to the rebellious tribesmen stating that France does not propose to occupy new territory, but merely to assure the safety of foreigners and re-establish order, under the authority of the sultan. The tribes are told that if they will end the rebellion and discontinue their menaces, France will stop the march of her troops toward Fez, but will not leave the French government will be obliged to pacify the country and punish the leaders in the revolt.

NEVADA WOOL SELLING AT 13-12

Boston, April 25.—The demand for domestic wool is slackening while values have steadied. A disposition to maintain prices rather than clear their bins by additional sacrifices is shown by shorts. Yet trading runs along fairly well and inquiries remain broadly Ohio 14 blood fleeces are selling in good lots, from 23 to 24, while fine scoured territory brings 50 to 52.

Buyers are in the west bidding for both clipped new wool and that on the sheep's back, but contracting as yet is not brisk. The new Nevada clip is reported as selling at 13-12 on a basis of 48 cents clean. Pulled wool remains dull.

REORGANIZE THE COUNTY LEAGUE

A meeting for the purpose of reorganizing the Weber county baseball league for the present season has been called for Friday afternoon at 2 o'clock in the court house and it is expected that representatives from all the smaller towns in the county will be present.

The league was first organized two years ago and both seasons proved the success of the venture. It is anticipated that the present year will prove even more successful than last year. It is expected that a schedule will be adopted Friday which will be satisfactory to all of the towns represented and that other business necessary to the perfection of the league for another year will be transacted.

MULLIN CLINGS TO WINNING STREAK

Detroit, April 25.—Because he does not want to risk the spoiling of a winning streak, Geo. Mullin, pitcher of the Detroit Americans, declines to adopt the advice of no less than four physicians and have an operation on his nose.

Specialists in Cincinnati, Chicago and Detroit and the club physician have all advised Mullin to speed up the knife, as a means of hastening recovery. Mullin says after he loses a game he will have the operation performed.
